CU Emeritus College Breadth Seminar

Cybersecurity-Staying Safe in a Digital World
Josh Smith

**Manager of Endpoint Security for Clemson University
Office of Information Security and Privacy
Clemson Computing and Information Technology**

 "Staying Safe in a Digital World" will give an overview of general computer security, avoiding malware and viruses, and how detect and avoid phishing schemes.

Josh's employment with CCIT at Clemson University began as a student in 2004. He was hired full-time in 2006 and has enjoyed working at CCIT for over 11 years now. Josh is currently responsible for protecting Clemson's interests and digital assets by architecting and managing the security systems that protect all endpoints such as laptops, desktops, tablets, and other mobile devices. He is also privileged to share cybersecurity education and training with non-IT folks.
