GROW WITH FAST:
CAREER READINESS

The Grow with FAST: Career Readiness Program is for underrepresented and minority students in STEM. The program will equip students studying technology with the professional and technical tools to succeed in the industry, and provide internship and full-time opportunities.

Students who meet program requirements will receive a guaranteed interview for internship or full-time opportunities!

WHO

- Minimum of 3.0 cumulative GPA.
- Underrepresented or minority Freshman, Sophomore, Junior, or Senior student majoring or minoring in Technology (Computer Science, Computer Engineering, Software Design, Management Information Systems, Math, and related studies). Freshmen should have intentions to major in this area of study.
- Willingness to participate in five out of seven virtual workshops between October – December 2022.

WHAT

The program will consist of technical and professional development virtual workshops. A total of seven (7) workshops will be presented. Students are required to participate in a minimum of five (5) workshops.

WHEN

The program will take place October through December 2022.

PROGRAM REQUIREMENTS

Students are required to meet the following program requirements:

- Participate in a minimum of two (2) professional development workshops.
- Participate in a minimum of three (3) technical development workshops.
- Project presentation: students will present a project of their choice from either coursework or personal projects.
