

Interested in a Summer Internship or an Internship During the School Year?

We are looking for motivated individuals wanting to join a progressive, rapidly growing, award winning firm. We are seeking Interns who will provide engineering support assignments requiring fundamental knowledge of design/drafting standards, engineering practices, and techniques.

Responsibilities include Engineering Notes, Production of Graphic Materials, Compilation of GIS Data, Production of Construction Drawings. Assignments are designed to develop a practical knowledge of their interrelationships within the engineering discipline.

This is a flexible position where the hours can be tailored to fit around a class schedule if necessary. It is meant for a local student who lives within commuting distance of the office during the school year but who may live within commuting distance of our other offices during the summer.

If interested, please send a Cover Letter and Resume to Mr. Adam Hogan, PE, at ahogan@allianceCE.com.
