

SUMMER UNDERGRADUATE RESEARCH

NSF-Sponsored REU Program

Broadening Participation in Atmospheric Science, Oceanography and Geosciences (AOG) Undergraduate Research

Atlanta, GA – Sunday, May 21st, 2023 to Friday, July 28th, 2023

Do you have an interest in researching environmental problems, including global climate change?

Do you have interest in any of the following areas?

- **Atmospheric Chemistry**
- **Dynamics of Weather and Climate**
- **Biogeochemistry**
- **Geophysics**
- **Oceanography and Climate**
- **Paleoclimate**
- **Space and Planetary Science**
- **Remote Sensing**

All STEM (Science, Technology, Engineering and Math)

majors are encouraged to apply to participate in a ten-week

undergraduate research program hosted by Georgia Tech, Spelman College, Clark Atlanta University and Morehouse College. Participants will gain broad perspectives by participating in a dynamic research environment while working with a faculty mentor at one of the four partner institutions. The program also includes several professional development activities, seminars with faculty and research scientists, and a research symposium.

Participants will receive a stipend of \$6,000 for the ten-week program, a travel allowance, and housing on the Georgia Tech campus. Participants must be U.S citizens or permanent residents of the U.S. and currently enrolled in an undergraduate degree program at a college or university (including remaining enrolled throughout the duration of the summer program).

To apply: <https://easreu.eas.gatech.edu/>

Application Deadline: **Wednesday, February 15th, 2023**
