Compensation Pay Structure Changes

Heather Humphreys

Office of HUMAN RESOURCES

Completed Actions

- Transitioned all classified employees to one of four new pay structures:
  - General
  - Certified Law Enforcement
  - Clinical
  - Technology
- Brought all classified employees to the minimum salary of their new pay grade.

Office of HUMAN RESOURCES

Questions

Will unclassified staff positions be evaluated now that the evaluation and implementation for classified positions is complete?

Unclassified positions are routinely evaluated against internal and external markets using the position description on file. Market data is refreshed annually to ensure employee pay is within the appropriate pay range. We will continue to closely monitor positions to ensure proper market alignment and positioning.

Office of HUMAN RESOURCES

Questions

Will unclassified staff positions be reviewed to reflect competitive industries (e.g. teachers)?

Unclassified positions are currently evaluated and reviewed in comparison to similar jobs in comparable industries. Wherever possible, Clemson uses multiple internal and external data sources to support evidence-based market placement.

RideSharing: Vetting Process

As we considered this addition, the safety and security of faculty, staff and students when using the ridesharing feature was front and center.

Proactive Measures:

- RideShark's software was **reviewed by CCIT** which included a comprehensive review and approval of data governance standards that included data storage, access and an accessibility review.
- Worked with CCIT to perform a **Shibboleth Integration** which results in faculty, staff and students having to use their CU Log in credentials to access certain features in the TigersCommute App, specifically the Ridesharing feature.
- **Consulted with General Counsel's office** regarding the Ridesharing feature and associated concerns.
- Reviewed app and functionality with **CUPD.**
- Reviewed with other **stakeholders and leaders** to elicit questions and enhancements.

PUBLIC SAFETY

PARKING AND TRANSPORTATION SERVICES

RideSharing: Safeguards

Common Questions and FAQ's

- Can passenger be provided with first name, license plate, and car's color, make and model?
- Can user report bad behavior?
- Does Admin have ability to ban users?
- Are trip occurrences are logged in the backend?
- Can users share their trip with a friend and friend can track the user?
